Describe innoSpace in one sentence

A community which is always happy to help and facilities that kick-start our project.

The opportunity (a space, equipment, contacts) to help/support student teams achieving their goals.

InnoSpace is a 'spring-plank' for new initiatives and innovation.

“Freedom to pursue my dreams”

An enormously inspiring and active environment, and a mixture of experienced and less experienced people who all want to do some really cool stuff

Diverse and vibrant community

An open and more creative and innovation driven place to develop myself and my team

**innovation
Space**

What do they learn from interdisciplinary collaboration?

“To take the time to transfer knowledge”

“Different perspectives on the same problem”

“Patience”

“I learn to respect the other disciplines”

“Keep more opinions into account not just my own when making decisions”

“The importance of diversity and how to take advantage of this”

“Communication is key”

Space

What does innoSpace provide that is unique?

The place to create your own career path, put theory to practice

The place where the dreams of a 5 year old and the perseverance of a seasoned entrepreneur come together in ambitious teams of students

A creative atmosphere with amazing people trying to help students to bridge the gap between university and the market.

A community-driven place where people and ideas meet and catalyse innovation
